Press Release

Time Tracker Released

Intersoft announces the release of the new Time Tracker remote payroll data capture and reporting tool.

Beaverton, OR, September 1, 2009: Time Tracker is an efficient easy-to-use product designed to collect and report employee time for input to the INTERAC Payroll system. Supported on a wide range of Windows PCs, Time Tracker provides a simple data entry screen for timekeepers or remote office personnel. With Time Tracker you will no longer need to fax handwritten time cards, call in daily time, or pay overnight charges to get Payroll to the accounting department or in from client locations.

Call us to schedule a web-based product demonstration.

About Intersoft

Since 1982, Intersoft Systems has been the developer and provider of INTERAC software, a fully integrated suite of financial and management applications to streamline control and access to mission critical information at every stage of the business cycle. Our modular structure allows for a flexible configuration to match your specific requirements - growing with you as your needs change - while maintaining a fully integrated interface to all applications.
